Adams and Turpie Street Vacations

The Board has received recommendations from Traffic Engineering that certain streets in the area of Oxford and Wayne Trace be vacated. Included in this recommendation is:

- 1. Adams from Oxford to Drexel
- 2. Turpie from Drexel to Evans

In reviewing this recommendation in the field and discussing it with District Councilman James Stier, we feel such vacations could be accomplished without any adverse effect to abutting property owners and would improve the overall street traffic pattern.

Please prepare resolutions and property ownership lists necessary to accomplish these vacations.

It was further recommended that consideration be given for the vacation of:

- 1. Turple from Evans to Manford
- 2. Ormsby from Fruehoff to Wayne Trace

Please prepare maps and property ownership lists for lots abutting these two areas so that the Board may study how such vacations would affect the abutting property owners.

To make these vacations fully effective, the Board feels it is necessary that any intersection returns on pavements be removed and new curbings installed across the intersection showing the street is vacated. This will be required along Oxford, Drexel and any other improved street. Please include with your resolutions and information a preliminary cost estimate for such reconstruction.

BOARD OF PUBLIC WORKS

With regard to vacating certain portions of Adams, Turpie, and Ormsby Streets, I am in agreement with the areas coded on the map presented to me. I would suggest moving ahead at once on Adams and Turpie.

However, since certain residents on Ormsby would have no egress, any vacating on Ormsby would present a problem. I think we need to discuss Ormsby further.

I am enclosing herewith the map that you and Dr. Boswell gave to me several weeks ago.

Dear Su;
We are in favor of vacating Turpic Street
from the South line of Evans Street to the
north property line of Dresel ave. It has
been an eye sore for years. We had
